Disagreement Template

Build an argument together from the facts, values, and proposals that best represent each side.

Step 1: Learn

Gather facts, interpret them, and express values from multiple perspectives.

Step 2: Orient

Converge on shared values that are relevant to the discussion. Propose actions that move things forward.

Step 3: Act

Commit to doing something and checking in again once new facts turn up. Repeat step 1 if necessary.

What is the disagreement about?

What is the unacceptable difference between two or more perspectives that sparks anxiety?

What do we know? What is the evidence? Where is it sourced from?

How do we interpret the facts? How important is this to us?

What should we do? How will we know if it's effective?
